

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

RECOMMENDATIONS.

ALBANY, N. Y., *December 31, 1907.*

To the Legislature:

During the weeks following the close of the fiscal year ending September 30, 1907, a money stringency prevailed in bank circles. Nearly twenty millions of the public funds were deposited in financial institutions throughout the State, and although eight of the banks which suspended payments held State funds, not a dollar of the principal or interest was lost or tied up.

Under the provisions of the State Finance Law, a bank designated for the deposit of State moneys must execute and file with the Treasurer a surety bond to the State in excess of the amount of the deposit; or deposit with him State bonds of this State for an amount equal to such money deposit. At the present time only bonds issued by surety companies and State bonds are accepted as such security.

I would recommend the following amendment to the law to enable banks to furnish United States Government, State, County and Municipal bonds of this State in lieu of bonds issued by surety companies as security for deposits, believing that such amendment will have beneficent results for the State and the State depositories. State deposits would be more valuable to the depositories if they were relieved from the payment of premiums for surety bonds; and the State would still have the best obtainable security for its deposits.

JULIUS HAUSER,
State Treasurer

Section 8. *Deposit in banks.*—The state treasurer shall deposit all moneys received by him on account of the state, except such as belong to the canal fund, within three days after receiving the same, in such banks in the cities of the state, as in the opinion of the comptroller and treasurer are secure and pay the highest rate of interest to the state for such deposits. The money so de-

posited shall be placed to the account of the treasurer. He shall keep a bank book in which shall be entered his account of deposit in and moneys drawn from the banks in which deposits are made by him, which he shall exhibit to the comptroller for his inspection on the first Tuesday of every month and oftener if required. The treasurer shall not draw any moneys from such banks unless by checks subscribed by him as treasurer and countersigned by the comptroller, unless otherwise provided by law. No moneys shall be paid by any such bank out of any such deposit except upon such checks. Every such bank shall transmit to the comptroller monthly statements of all moneys received and paid by it on account of the treasurer. Banks designated for the deposit of state moneys under the provisions of this section shall before deposits are made severally execute and file with the treasurer a bond to the state in such form and with surety or sureties for such sum as may be prescribed and approved by the treasurer and comptroller, for the safe keeping and prompt payment of such moneys on legal demand therefor with interest at the rate agreed upon, *but any state depository may furnish instead of a bond of a surety company as security for any deposit or deposits made by the treasurer, United States government bonds, state bonds of this state, or county or municipal bonds of this state and such bonds as are legal investments for savings banks organized and doing business under the laws of the state of New York, worth not less than their nominal value and in an amount equal at least to ten per centum more than the maximum amount of money at any time to be deposited with such bank, such securities to be accompanied by written assignment vesting the legal title thereto in the state of New York as collateral security that such depository so depositing and assigning said securities shall and will safely keep and pay over to the state treasurer on his check countersigned by the comptroller all money which may come into the possession of such depository under and by virtue of the provisions of this act, together with all interest accruing thereon as herein provided, and providing that in the case of default on the part of such depository the said state treasurer and comptroller shall have full power and authority to sell said securities or so much thereof as may be necessary to realize the full amount of the funds of the state so deposited in such depository together with the interest thereon. The interest on such bonds so deposited and furnished shall when paid be turned over to the bank so depositing the same so long as it is not in default.*

Annual Report of the State Treasurer.

TRANSFER

OF

SECURITIES FOR THE INSURANCE DEPARTMENT

In pursuance of chapter 732 of the Laws of 1868, which provides as follows:

Section 1. No transfer of stocks, bonds or mortgages, or other securities, now held or hereafter received by the Superintendent of the Insurance Department under the provisions of an act authorizing deposits in the said department, shall be deemed valid or of binding force or effect unless the same be countersigned by the Treasurer of the State, or, in his absence from his office or inability to perform the duties of his office, by his deputy, or by the accountant and transfer officer, as authorized by act, chapter 466, Laws of 1896.

It shall be the duty of the Treasurer aforesaid to keep in his office, or in the office of the Superintendent of the Insurance Department, a book in which shall be entered the name of the company from whose account such transfer of securities is made by the Superintendent, and the name of the party to whom such transfer is made, unless such transfer shall be made in blank; and the par value of any stock so transferred shall be entered therein and the amount for which every mortgage transferred is held by the Superintendent, and the name of the party to whom assigned shall also be therein entered; and it shall be the duty of the Treasurer, immediately upon countersigning and entering the same, to advise, by mail, the company from whose accounts such transfer is made of the kind of security and the amount of the same thus transferred.

§ 2. The Treasurer shall present in his annual report to the Legislature the total amount of such transfers or assignments countersigned by him.

The following is a statement of such transfers from the 1st of October, 1906, to the 30th of September, 1907:
